WATER FLOSSER

The Easy and More Effective Way to Floss™

The Waterpik® Water Flosser: The Easy and More Effective Way to Floss.™

Clinical research confirms the Waterpik® Water Flosser is significantly more effective than both string floss and Sonicare® Air Floss for plaque removal and healthier gums.¹

The Waterpik® Water Flosser provides a unique combination of water pressure and pulsation to clean deep between teeth and below the gumline where traditional brushing and flossing can't reach.

¹Independent clinical studies. Go to www.waterpik.com for details.

Clinically Proven Results

Effective Plaque Removal

Proven to remove up to **99.9%** of plaque from treated areas in 3 seconds.¹

Tooth surface magnified by electron microscope

 - Floss mode for optimal interdental cleaning
 - Hydro-Floss Massage mode for enhanced gum stimulation
- 1 minute timer with 30-second pacer
- Enhanced pressure performance
- Compact ergonomic design
- 7 Accessory tips included
- Quiet operation
- 3 Year warranty

Traditional Oral Care
Brushing alone can't reach debris and bacteria between teeth and below gums. String floss is awkward and only partially effective.

Waterpik® Water Flossing
Add Water Flossing before brushing to easily remove bacteria and debris deep between teeth and below the gumline. Massaging action increases circulation and gum health.

Results Guaranteed

Healthier gums guaranteed or your money back.
